

Windie360

Handheld Anemometer

Handheld wind meter for precision wind measuring from every direction.

Compact, handheld, and lightning-fast: your essential guide for course setting and safety.

- **360° Wind Measurement:** True multi-directional sensing- get accurate readings regardless of how the wind hits the unit.
- **Multi-Unit Tracking:** Toggle between Knots, m/s, and km/h at the touch of a button.
- **Polarized-Ready Screen:** High-contrast display engineered to work perfectly with polarized sunglasses.
- **Removable Head Unit:** Modular design with a replaceable head- built to last for years of service.
- **2-YEAR WARRANTY:** Reliability you can count on in every squall.
